## INDEX OF SUBJECTS

	Page
Acetazolamide, use in anaesthesia for ophthalmic surgery	112
Anterior chamber, flat, after cataract surgery	67
Blepharoplasty, following tumor surgery	171
Carbaminoylcholine chloride, response of intraocular pressures to single instillations of	292
Cataract, extraction using the Kelman cryosurgical unit	288
flat anterior chamber after surgery	67
incisions, wound closure and complications of wound closure	87
reduction of vitreous loss in surgery	71
Catgut, reactions in squint surgery	283
Chlorpromazine, ocular toxic changes associated with	190
Cholinesterase, effect of echothiophate iodide on	274
Congenital ocular motor apraxia	253
Conjunctiva, persistent preoperative contamination by escherichia coli	317
Cornea, effect of freezing on the endothelium of	183
silicone implant to control edema in rabbits	308
Cryosurgery, cataract extraction using the Kelman unit	288
effect of freezing on the corneal endothelium	183
thermoelectric retinal	138
Diabetes, retinal changes in the pre-puberty and puberty onset diabetic	104
$\label{eq:Diploplia} \textbf{Diploplia}, \ persistent \ in \ adolescents \ and \ adults, \ childhood \ strabismus \ as \ a \ cause \ of \ \dots$	199
Echothiophate iodide, effect on systemic cholinesterase	274
Eschericheria coli, persistent preoperative conjunctival contamination by	317
Exophthalmos, radiological findings in	44
unilateral	60
Glaucoma applanation tonometry and tonography, errors in	213
glaucomatocyclitic crisis	312
